- Due to the safety of the team, if an athlete is absent from practice the coach may move them to a different spot in the cheer/routine for that week or remove them from the half-time performance completely. We want this to be a fun experience for all and attending practice is important for the success of the TEAM!

**Competition**

- Registering for competition is OPTIONAL. When you choose to participate in competition, practices are not optional. Your child is part of a choreographed routine and a team member.
- Attendance at practices and games is crucial to (and required for) the preparation for cheer competition. Coaches may also hold mandatory “mat practices” and/or “field practices” to accomplish this goal.
- Parents and athletes may be asked to sign a code of conduct/attendance policy set by the coach
